Minority Students	15%

CLASS PROFILE: MR. HAMPTON

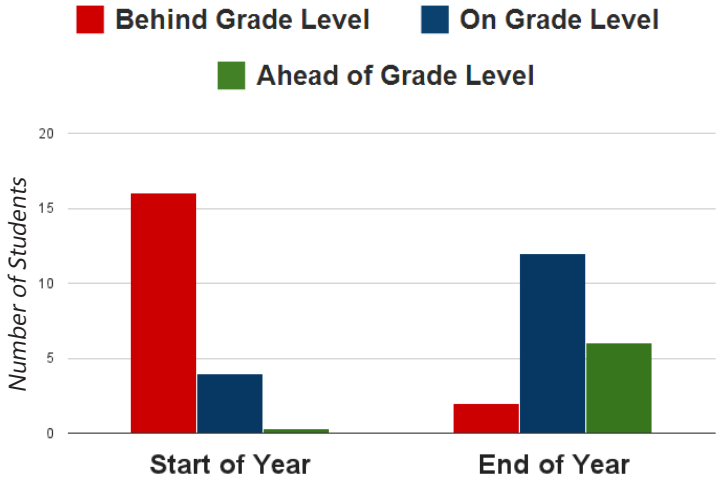
School Year	2012-2013
Grade	5th
Total Students	20
Special Education	2
Gifted Students	0

INSTRUCTIONAL STRATEGY

After whole class instruction and individualized textbook work, all students would "login to Sokikom and practice on their level" as final rotation in math instruction.

15-30 minutes every day

COMMON CORE TEST DATA



"I knew that Sokikom would always be an easy fit and a great digital component for class. For me to move the majority of my class two years in a year...I was extremely satisfied with our results."

--Mr. Hampton

TEACHER THOUGHTS

"After I had students login, Sokikom did the rest of the work for me every day. It allowed me to go in and use the analytics provided to pinpoint not just a grade level, not just a domain, but a specific standard. I could come in very quickly in the morning and see: OK, these students need to have these standards addressed. Just the ease of it fit perfectly with my classroom.

In Sokikom, students are either reinforcing skills they already have or are building background knowledge they are going to need in the future. As the year progressed, when I would introduce topics my students already knew things about the concepts - and I'm not talking about things they remembered from the year before - they remembered it because they had done it on Sokikom."

Mr. Edward Hampton - 5th Grade
